2021-2022 Graduation Timeline

Once we have these two forms, your SEAS Grad Advisor will do several things:

- 1) Update your research grades from IPG to CR

- 3) Process your Graduation Clearance Form

Tips for a Smooth Graduation

- [Apply online](#) now to graduate in Fall 2021.
- The Spring 2022 graduation application will open at the same time as Spring registration.

Spreading the word

Cultivating your scholarly presence

by Barrett Matthews, GW LAI

Publishing your thesis or dissertation

- ❖ GW will publish your thesis/dissertation in [GW ScholarSpace](#).
- ❖ This open-access (OA) copy will be available to anyone who wants to read it.
- ❖ OA publication has been shown to [increase citations](#) of scholarly work and helps introduce your scholarship to new audiences.

Varieties of OA

- ❖ **Author-driven:** The author makes a copy of their own work freely accessible, either on their personal website, or in an institutional or disciplinary repository.
- ❖ **Publisher-driven:** The publisher makes the work freely accessible to readers (but often requires that the author pay a fee).

Knowing your rights

- ❖ Before you submit your work to a journal, visit [SherpaRomeo](#) to learn about their OA policies.
- ❖ If your work is accepted, read your author's agreement carefully. Ask for help if you need it.
- ❖ If the agreement is very restrictive, it may be possible to negotiate.

Copyright

Q: When is a copyright obtained?

A: From the moment the work is created!

Q: Who owns the copyright?

A: In most cases, the creator, but there are some exceptions.

For your ETD though, you own it.

The Rights

The exclusive right to...

- Copy
- Make derivative works
- Distribute
- Perform
- Display

Transferring copyright and licensing

Like all property, copyright can be transferred.

In many cases, employers take over copyright of employee work product.

Work for Hire agreements give copyright to someone who hires an author.

You can transfer/lend some of your rights with a license.

Creative Commons

- Used to share and distribute a work more broadly.
- There are some qualifications you can use:
 - By Attribution
 - Non-commercial
 - No derivatives
 - Share Alike
- Not the same as public domain.
- CC and OA are not the same thing.

Curating your scholarly profile

- ❖ [ORCID](#) helps you associate all of your published work with your identity as an author.
- ❖ A [Google Scholar](#) profile helps you track the reception of your work, including citation metrics.

We're here to help!

GW LAI's Scholarly Communications Team provides assistance with the following and more:

- ❖ Identifying publication venues
- ❖ Navigating author's agreements
- ❖ Curating a scholarly profile
- ❖ Measuring your research impact

If you have questions, feel free to get in touch.
